

Accessories

WINDOW SILLS

Insulbrick ICF window sill M grade 2.4m lengths

\$27.50 EACH

WINDOW BUCKS

Window Bucks @2.5m lengths

\$5 per LM

LIGATURES

Ligatures increase the compressive strength of reinforced columns and beams. They contribute to accurately positioning the main reinforcing bars.

\$2.20 EACH

SCREWS

Screws required for bracing

14-10 x 240 S/Driller Screws \$3.00 EACH

14-10 x 300 S/Driller Screws \$3.30 EACH

LOW EXPANSION FOAM AND DISPENSERS

Low expansion foam seals up small openings around windows, doors, plumbing and electrical works. We recommend using the Touch n Seal Polyurethane Foam Sealant.

We use a plastic dispenser gun which can be purchased at any hardware retail store. It has a metal barrel and is re-usable.

Foam cleaner is used to clean wet foam from tools and applicator guns. The can of cleaner attaches directly to the gun to flush barrel.

\$27.50 EACH

\$27.50 EACH

\$88.00 EACH

STARTER CHANNELS

Insulbrick ICF's are laid directly onto the strip footing or concrete slab guided by a steel channel. The Starter Channel is available to purchase in lengths of 4.2m.

\$30.00 EACH

BRACES

Insulbrick ICF can provide your project with the Bracing required for your Insulbrick ICF Wall construction. We provide clean, usable equipment, delivered to the jobsite which will help to create plumb, straight walls every time. We can include the cost of the rental into the quote provided to you by Insulbrick ICF.

Note: Bracing can be leased only to clients who purchase our Insulbrick ICF.
We have two types of bracing available.

Standard Bracing

\$11.00 per week per
Brace

Paneljack Bracing

\$22.00 per week per
brace
